DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see arguments, see page 6, paragraph 2, filed 3/8/2006, with respect to the diaphragm plate have been fully considered and are persuasive. The objection of claims 1-3, 5, 6, and 12-16 has been withdrawn. Webster's dictionary defines a diaphragm as a "thin partition" and in light of that definition the examiner withdraws the claim objection.

Allowable Subject Matter

2. Claims 1-17 are allowed.

3. The following is an examiner's statement of reasons for allowance: U.S. Pat. No. 1,609,894 (Trent) discloses a valve comprising a valve body (1), a valve opening (15), a valve plate (54), a diaphragm plate (55) having at least one opening (59), a complete open position (figure 4), and a closed position (when plate 54 is in the active position) but lacks a closed position where the valve plate is in the closed position and the diaphragm plate is in the active position and the valve plate is sealed relative to the valve body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John K. Fristoe Jr. whose telephone number is (571) 272-4926. The examiner can normally be reached on Monday-Friday, 7: 00 a.m-4: 30 p.m.
